The island is a bit more remote and undeveloped than Block Island but offers beautiful views and is always on the top of everyone's list. Hike to the top of the island for expansive views of Cape Cod and islands, really

magnificent. Other hikes around the island for the more adventure some or enjoy several small but secluded beaches. To have shellfish delivered directly to your yacht radio [Cuttyhunk Shellfish Farms](#) on channel 72 between 5:15 am and 7:30 pm.

We recommend downloading [Dockwa](#). Visit their website or download the app to book moorings and dock space.

If you are planning on sailing to either **Nantucket** or **Provincetown** keep in mind it will take you about 12 hours or so to sail there.

The boat must be in a slip, on a mooring or at anchor an hour before sunset. You are not allowed to sail or motor after this time until after sunrise.

If you are planning on sailing to **Provincetown** you must check the tide table for the **Cape Cod Canal**. Current in the canal can reach 5+ kts.

Navionics is a helpful tool to use when planning a trip but do not rely on it as your main source of navigation. Do not auto route.

Be prepared to submit a float plan and update us if any changes are made.
